VOLUNTARY ANNOUNCEMENT

Chinasoft Joins Hands with Shenzhen Kaihong and Guochuang Center to Jointly Create a New Generation of Intelligent Terminal Equipment for Home Appliances: Promoting Domestic Application of Smart Operating System Capabilities for Home Appliances

Chinasoft International Limited (hereinafter referred to as “**Chinasoft**” or the “**Company**”) releases this announcement as a voluntary announcement to let the public know the latest information of the Company.

Recently, the Company joined hands with Shenzhen Kaihong Digital Industry Development Co., Ltd. (“**SZ Kai Hong**”) and Qingdao Guochuang Smart Home Appliances Research Institute Co., Ltd. (“**National Innovation Center for high-end Intelligent home appliances**” hereinafter referred to as “**Guochuang Center**”) to meet the high-end, intelligent, and scenario-based needs of the home appliance industry, and jointly create a new generation of “intelligent terminal equipment for home appliances in the whole house”. The two parties will jointly promote the wide application of the open-source Harmony IoT operating system and solutions in the field of smart home appliances, and create a demonstration benchmark for the core operating system technology innovation products of smart home appliances.

The Company, SZ Kai Hong, and Guochuang Center give full play to their respective advantages in industrial resources, technology, and talents, and jointly launch “the smart central control panel of the whole house home appliance” product through the entry point of smart home appliances, integrating KaihongOS system and providing smart home appliances in-depth customization of application scenarios. Based on KaihongOS, the smart central control panel provides functions such as non-network control, non-sensing network distribution, audio and video streaming, audio and video calls, and anti-screen projection control. The operation of control equipment is more accurate, more convenient, and more stable, and truly realizes intelligent digitalization and intelligent management.

The smart central control panel of the whole house home appliance is the benchmark product in the field of smart home appliances after the Company signed a strategic cooperation agreement with SZ Kai Hong and Guochuang Center. This is an important achievement of the Company's continuous promotion of the in-depth application of the localized intelligent IoT operating system and capabilities in the field of smart home appliances. In the future, the Company will actively build out a wider domestic supply chain of smart terminal systems, gather more ecological partners around OpenHarmony, provide more smart products and solutions, expand new industry market space, and accelerate the localization of various industries Intelligent upgrade.

By order of the Board
Chinasoft International Limited
Dr. Chen Yuhong
Chairman and Chief Executive Officer
